JOMAX®
PRE-PAINT CLEANER

DESCRIPTION AND USES

Jomax® Pre-Paint Cleaner is formulated to clean dirt, grease and other household soils from interior surfaces before painting. This product features a no rinse formula and does not leave any residue. It is recommended for cleaning walls, ceilings, trim, doors and other interior household surfaces. Proper use helps promote adhesion and contains no phosphate.

This product is biodegradable, has zero VOC, and contains no harmful solvents. Jomax Pre-Paint Cleaner is 'Design for the Environment' certified. It contains no bleach, ammonia or phosphorous. For more information on EPS's 'Design for the Environment' program, log onto: http://www.epa.gov/dfe/.

258969	1 gallon

PRODUCT APPLICATION

DIRECTIONS FOR USE

Before use, make sure all loose dirt and debris is removed. Spray 6-8 inches away from the surface. Apply directly to soiled areas. Allow product to penetrate briefly. For older, more difficult jobs, apply a generous amount of pre-paint cleaner and allow it to stand a few minutes before wiping dry. To wipe dry, use a clean cellulose sponge, cloth or paper towel. For severe stains, repeat as necessary and scrub lightly.

NOTE: JOMAX® Pre-Paint Cleaner is not a de-glosser. Carefully examine cleaned surfaces. Old gloss and semi-gloss surfaces require a solvent de-glosser or sanding to promote proper adhesion for the subsequent coating. *Do not mix this product with other chemicals and do not use on varnished surfaces, granite, marble, silver, brass or leather.

CAUTION! Avoid contact with eyes and skin. If eye contact occurs, flush with water for at least 15 minutes. If irritation persists, seek medical attention. Do not take internally. KEEP OUT OF REACH OFCHILDREN.

DISPOSAL

The empty container can be recycled. If recycling is not available, discard in trash.
